### CAUSED BY A WASHOUT

A BAD WRECK ON THE NORFOLK AND WESTERN ROAD

Forty Persons at First Reported Killed but Later Advices Reduce the Numher of Fatalities to Five. What the President of the Hoad Says.

LIBRRITY, VA., July 2 .- A fearful catastrophe occurred about a mile west of Thaxton, at 1:20 this morning, on the Norfolk and Western Railroad, by which about forty passengers were

The accident was caused by a washout on a high bill.

An informer here says that there were only about seven of the crew and passengers saved. Some of the cars and passengers were burned. Captain Rowland Johnson was in charge of the train and is mortally wounded. Baggagemaster Ford is said to be

very badly hurt. Major J. C. Cassell, superintendent of the Lynchburg Division, was on the train, and was seriously injured.

Philadelphia, July 2.—The reported filling of forty people in the accident near Liberty, Va., is said to be greatly exaggerated by President F. J. Kimball, the president of the Norfolk and Western Railroad, who has his headquarters in this city. He is in direct telegraphic commitrication with the general manager. Particulars given by Mr. Kimball are to the effect that five persons were killed, most of whom are train hands. Quite a number of people were injured. The accident was caused by a washout, which was due to the heavy rainatorm which prevailed throughout Virginia during the last forty-eight hours. The train was moving slowly at the time. Several cars and the locomotive were thrown into the ditch, but the sleeper remained on the track. Fire then broke out, in which a number of passengers were burned. Roanoke sent assistance by a special train, including physicians and a fire company. Mr. Kimball is unable to furnish the names of the killed and wounded.

### NO ONE TO PREVENT IT.

The Ready-Kennedy Fight to Take Place Despite the Authorities.

The sporting men of Washington have for some days been looking forward to the fight advertised to take place between Ready and Kennedy at some point down the river. This evening was the time selected for the fight, and it was thought that Collingwood Beach would be the place. The matter was kent very quiet, but somehow the owners of the resort got wind of it and it is thought that they income the content of the place. The matter was kent very quiet, but somehow the owners of the resort got wind of it and it is thought that they income the content of the place. The matter was kent very quiet, but somehow the owners of the resort got wind of it and it is thought that they income the content of the party leaving the city. First, the police were informed, but they had no jurisdiction as the fight was not to occur in the limits of the District; then the Department of Justice was asked if they could do anything to prevent the meeting, but they replied that they had nothing to do with the matter, and as a last resort the Treasury Department, which has control of steamboat licenses, was informed of the affair in the hope that they might be able to exercise the authority they have over the steamboats of the country to prevent the party leaving the city. But they could do nothing, and so the fight will take place this evening at some point down the river. The steamer Cecil will leave Passeno's wharf at 8 o'clock, and it is expected that the fight will be one of the hardest ever held in Washington.

NO CABINET MEETING.

President Clears Up His Desi Preparatory to His Trip. Preparatory to His Trip.

Owing to the fact that the President desired to leave for Woodstock, Conn., this afternoon there was no Cabinet meeting to-day, and this was the understanding yesterday when Secretary Blaine made so nis mind to leave for Bar Harbor. Callers were numerous at the White House to day, and the President was not permitted to rest for an instant until nearly 2 o clock. Senators Allison, Chandler, Cullom and Dolph formed a quartet who have not been about the White House for some time, and by a singular coincidence just four Representatives claimed the President's attention after the Senators had retired from the library. They were Messrs. from the library. They were Messrs. Hitt. Houk, Lacey and Taylor, Tennes-see. Secretary Proctor and Hon. Alex-ander R. Lawton, formerly U. S. HENRY JOHNSON'S TALE

HOW HE CAME TO SHOOT ENOCH

He Was Drunk at the Time and Knew Nothing of His Crime...A Straightforward Narrative -- He is

Committed to Jail. The Enoch Turner murder mystery unraveled itself before the coroner's jury this morning. The police yesterday arrested one of the two men who were seen running away from Hetty Green's Saturday night. He was Henry were seen running away from Hetty Green's Saturday night. He was Henry A. Johnson, a bright looking mulatto, about 20 years old. Before the jury this morning he told his story in a straightforward manner, keeping up a cheerful demeanor. He does not seem to realize his position. He testified as follows: "George Williams and I started from Myers' stable Saturday night, went up to Murdock's and got a glass of beer and then went to my house. We went from there to McCormack's, corner of Seventh and B streets, then up to Billy Wagner's gun shop, where George Williams got his pistol, which he had left there to get fixed. After getting the pistol and cartridges we went back to McCormack's and got more to drink. We drank a drink called 'Gilmore, which tastes like cider. I don't know what it's made of, but I do know it sets your head to wanderin'. We went over to Skelly's place and stayed there some time until I felt pretty drunk. I did not know anything, and we started to go home. I knew I couldn't get home alone. George Williams and Jno. Lewis Johnson started off with me. When we came out of Skelly's Williams handed me the pistol, saying: 'Put this in your pocket.' I did so, and we started off over the commons. I remember being at some house on the commons and firing the pistol off, but don't know anything about it. After the pistol was fired someone said. 'You have killed Enoch.' I don't remember the pistol was fired someone said, 'You have killed Enoch.' I don't remember have killed Enoch.' I don't remember anything more after that until Sunday morning, when I found myself in Burden's Court, near Pierce street, where I suppose Williams carried me. Williams was with me when I came to myself.' Witness knew Turner, but never had any trouble with him. John Lewis Johnson was then sworn. He said he was at Skelly's Saturday night, where Johnson was then sworn. He said he was at Skelly's Saturday night, where he met George Williams and Henry Johnson about 9:30. George Williams got into a difficulty with Jim Lewis and they went outside to talk it over. After awhile witness started away with William Johnson. They went to Hetty Green's, where witness left the others and started home. As he got nearly home he heard the pistol shot. Both Johnson and Williams seemed to have been drinking. After hearing the testimony of this witness the jury retired. The jury returned a verdict declaring that deceased came to his death from a pistol wound in the head, and declared their belief that Henry Johnson fired the shot. Johnson was committed to jail and James Sharp was released.

The man Williams, whose testimony is anted in the case, surrendered himseld et police headquarters to day.

CHIEF MEREDITH IN CHARGE.

Scenes at the Bureau of Engraving and Printing To-Day. Captain Meredith's desk to his bis Captain Meredith's desk in his big room in the southeast corner of the Bureau of Printing and Engraving looks like a flower-garden or the win-dow of a florist's shop. The new chief was almost hidden behind the flowers banked on his desk when he sat down behind it this morning. The flowers were from friends of all sorts, personal and official and an immense horse-shop and official, and an immense horse-sho was from the plate printers. The nois was from the plate printers. The noisy steam presses up stairs were stilled this morning. The last Congress passed a law reducing the royally from \$1 a thousand impressions to one cent a thousand. On the natural supposition that the company owning the presses would not accept these terms, the use of them was stopped yesterday when the reduced rate went into effect. It used to cost almost half the former royalty to keep fire presses in order, and at the reduced royalty the Milligan Company, which presses, would loss money. But yesterday the Secretary of the Treasury received notice from the Milligan Company that they would accept the royalty of one cent a thousand impressions. Yesterday when Captain Meredith arrived at the Bureau he held a reception and was introduced to the employes by Chief Clerk Brackett of the Treasury Department. The new chief took a Chief Clerk Brackett of the Treasury Department. # WASHOUT ON THE B. & P.

Away Near Baltimore. Some 500 feet of the B. & P. tracks were washed out this morning and travel was deleved some hours, the New York train not getting here till about noon. The washout was caused by the heavy rain, which so swelled the pelu-cid Stony Run as to make it overrur its banks. At this point the railroad tracks are laid on a low embankment, two or three feet high, and this embankment, tracks and all was washed away about 6:30 o clock this morning. There was no other accident, as it was daylight and he washout could be seen for a long way by approaching engineers. In two or three hours the northbound track was repaired and trains were switched across the break on that. By 3 o'clock this afternoon the railroad officials here said the wash out would be repaired and trains run-ning regularly. Several local and through trains were delayed this

THE BIG FIGHT CANNOT BE FOUGHT IN MISSISSIPPI.

ample of Governor Nichols and Issues a Proclamation Calling on His Officials to Prevent the Mill.

JACKSON, MISS., July 2 .- Governor Robert Lowry has issued a proclama-tion, calling upon all sheriffs, consta-bles, peace officers and law-abiding citizens of the State of Mississippi to citizens of the State of Mississippi to apprehend all persons engaged or being about to engage in prize fighting, as has been announced will likely be the case within the State, and to proceed against the guilty persons as provided for by the act to prevent prize fighting. Governor Lowry has strengthened his preclamation by offering a reward of \$500 for the arrest of Sullivan and Kilrain and their safe delivery to the county officers in which they may attempt to fight. In the event of an entrance being effected and the law violated in the State requisitions will afterward be made for the return of the violators, principals and abetters and they will be rigorously prosecuted.

lators, principals and abettors and they will be rigorously prosecuted.

New Orleans, July 2.—Five of the ten ciub cars for the prize fight have already been taken and there is little doubt but the others will be sold. The press representatives will go on the first train and so will the pugilists, Sullivan's car being at the front of the train and Kilrain's at the rear. This is if Sullivan does not go over the night before the fight. Mr. Renaud has received such encouraging news from the before the fight. Mr. Renaud has received such encouraging news from the North that he has changed his views as to the crowd at the ring, and now expects 2,500 persons. This will necessitate thirty-five cars, which will go out in three trains, one at 4 o'clock in the morning, the other two at 6 o'clock. Telegrams have already been received here of parties coming from Birmingham, Montgomery, Pensacola, Mobile, Chattanooga, Hazlehurst, Vicksburg, Greenville, Memphis, Jackson, Houston, Galveston, Jacksonville and other points in the South, and many have already ordered their tickets. Less already ordered their tlokets. Less is known of the attendance from the North, but a fair number is exthe North, but a fair number is expected. It is thought that all who hope to witness the fight will be here on Saturday. Quite a number of sporting men are already here to survey the field in advance. Among the arrivals to-day were twenty-five from Denver. There is no change in the programme. Captain Jamieson of Meridian has accepted the offer to police the grounds and will come with twenty Mississippi rangers, men who have had a wide and varied experience in quelling riots. They will be supplemented by forty officers from New Orleans, giving a police force of sixty men, all men of nerve and spirit. There will be two to each car to prevent any

Every effort will be made to deter the roughs from going to the fight, and it is hoped to get a genwhether Kitrain will be here on Friday as originally proposed, as a dispatch was received here to day saying that he would come in the train due Saturday. It has finally been determined by his representatives here that he shall accept the offer of the Southern Athletic Club, practicing at their club room and boarding next door, where a suite of rooms have been fitted up especially for his benefit. been fitted up especially for his benefit.
On Sunday night he is to go down to
the car especially fitted up for him and
retire to rest early. His car will be
hitched on the club train next moraing

and taken to the ring without awaking him, as he is said to be a very heavy sleeper, and he will not leave until he walks out of it dressed, ready for the fight. Sullivan is to lodge at the Spanish fort on Saturday night in a room fitted up for him just over the Casino. Sunday night it is proposed that he shall take his car for the battle ground and lay at a side track, within a short distance of it, where he will sleep quietly there until next morning, thus availing the early rising or any exhauster. wolding too early rising or any exhaus tion from a trip on the cars. The final decision in this matter will rest with his trainers. There is not much stock taken here in the stories of a hippo-drome, and the general belief among square one, with the result largely epending on Kilrain's style of fighting In this connection the remarks of Ki rain's representatives here are generall considered as significant, for, while they have no authority to speak for they have no authority to speak for him, it is probable that they have some idea of the tactics he will pursue. Mike Donovan says his man will fol-low Sullivan's lead of fast fighting, if the champion so leads off, or play a waiting game if Sullivan is slow. Frank Stevenson declares that Kilrair is not going to stand up straight and let Sullivan hit him just because he can hit best in that way. People may talk about Klirain's imitating Mitchell's tactics, said he, but that will make no difference, and will not deter him from fighting in the way that suits him best. The general impression is that Sullivan will try a rushing fight and Kilrain a waiting game. Any difficulty in the ring between the seconds is regarded as improbable, although Clear and Mitchell hate each other so that i will be difficult to keep them apart. Some doubt has arisen as to the exact meaning of Rule 5 of the London prize ring rules, which declares that the referee shall call time at the expiration of thirty seconds, upon which each man shall walk unaided to his own side of the scratch, the seconds leaving it immediately afterward. The decisting is as to how the time is to counted. Donovan thinks it ought

be construed to mean thirty seconds from the time the corner is reached. and Harding says that at the Smith-Kilrain fight this point was argued and an agreement reached that the time should be from the moment the first man reached his corner. This point will be re argued at the coming fight, and a similar agreement probably reached. There is no betting here, although there

of Preserving Them.

Lendon, July 2.—London is waking up to the necessity of preserving its open places for breathing spots for the poor against the encroachments of new public buildings. The bill for using the site of the old Cold Bath prison as a postoffice came up in the House of Commons yesterday, and three members. Viscount Lymington, Mr. Rowland and Mr. Bartley, gave notice that they would oppose the measure, on the ground that those nineteen acres should be devoted to a recreation ground for the children of the poor of the neighborhood. The Government will probably consent to a compromise. Constitution Hill is to be thrown open to the public, and the County Council are considering a proposition to remove the private gates, to the number of a hundred or more, that block the entrained to so many London squares. The to so many London squares. The voice of the poor is making itself heard and the Democratic regime in London is well under way. The men have accepted a 5 per cent, advance in wages, beginning yesterday, and the masters promise a further advance of 5

O'Cleary disappeared about twelve months ago. To his friends his absence was unaccountable, and but few even of the Cronin faction of the Clan-na-Gael suspected foul play. Among those were J. D. Haggerty, to whom Alexander Sullivan had once said that Cronin ought to be removed, and Colonel Ricard O'S. Burke. In 1885 O'Cleary, then high in the confidence of the executive, was dispatched to Europe on active service. During his absence it was given out by the Trianglers that O'Cleary was in California, the fact being that he was in Amsterdam, from which point he conducted his "operations." O'Cleary returned from his last trip about eighteen months ago, and is said to have been at that time in a state of absolute poverty. All his funds were exhausted and he is represented as having been in a most deplorable condition. He made application for funds to the executive, but no attention was paid to him.
